What are my expectations for the BATTERY 2030+ roadmap update in 2025 at the end of this workshop? Any chages during the day?

Discussions were good, let's keep the pace!	We'll not start from scratch :D	A lot of thinking to do, a lot of reading to do	More focused, shorter, better aligned w/ Batteries Europe
We've got a lot of work to do! Let's roll! 💪	Cross-linked goals are the future!	Find a mechanism for new ideas and disruptive technologies	A lot of interesting discussions today, and in the future

BATTERY 2030+

What are my expectations for the BATTERY 2030+ roadmap update in 2025 at the end of this workshop? Any chages during the day?

Better data management for reproduciability and LCA people	Looking forward to new exciting calls on novel battery materials.	Avoid overlapping with other docs	Yes, now i am eager to see all the ides on the paper
Focus on methodologies and research that enables/accelerates disruption / breakthroughs	Sharing results and data where possible can really help!	Open questions and lot of things to do in the future.	Looking forward to great collaboration while working on the roadmap

BATTERY 2030+

What are my expectations for the BATTERY 2030+ roadmap update in 2025 at the end of this workshop? Any chages during the day?

Working more on collaborative tools that ultimately speed up our research (leverage computer sciences)

Think big and disruptive

Disruptive LCA!

We need a reminder later to join writing teams.

Clear structure! There is a risk that it's basically All The Things!

Create datasets, best practices and methodologies to promote exchange of information

Time

Vibes, long coffee breaks to chat, places, content of the presentations.

What was missing in the workshop today?

Time	Time

Beer	More time for discussion

As a starting point, nothing.

space on my flipboard

(Maybe) some searchable ressources on the current roadmap

Focussed discussions with super-competent people

What did I like the most in the workshop today?

Atmosphere	Discussions	Very well organised	World cafe style of rotating discussions
In-person discussions	Break out session in the morning	Ideas exchange	World cafe tables

18

What did I like the most in the workshop today?

We had some very good discussions	Talking with people outside of projects	Discussion	World cafe was great!
Cross discussion and new project inputs	Scientific exchange during breaks.	The people - mix of Battery 2030+ veterans and newly associated projects	Great input from colleagues with a wide range of expertise

What did I like the most in the workshop today?

Talking with minds alike + new ideas	Good project presentations	World cafe let's you get to know topics better	The view
The venue!	Cross- fertilisation between projects	anyone else leaving very early tomorrow and want to share a taxi?
